BOOKNOTES

Book Group

The Eugene Hotel book group members will meet in the lounge on Monday April 29th to discuss (Resident Requested Science Fiction) *The Man Who Fell to Earth*, in the Lounge.

The Man Who Fell to Earth tells the story of Thomas Jerome Newton, an alien disguised as a human who comes to Earth on a mission to save his people. Devastated by nuclear war, his home planet, Anthea, is no longer habitable. Newton lands in Kentucky and starts patenting Anthean technology—amassing the fortune he needs to build a spaceship that will bring the last three hundred Anthean survivors to Earth.

But instead of the help he seeks, he finds only self-destruction, sinking into alcoholism and abandoning his spaceship, in this poignant story about the human condition—which has inspired both a film starring David Bowie and the new series starring Chiwetel claimed author of *Mockingbird*.
